

ABOUT HUNTING AREA AND THE HUNT

The kind of the wildboards name in Turkey is 'SUS SCROFA'. Normally the weight of the animals are between 50kg and 250 kg but sometimes they can be 300 kg and 350 kg. The length of the trophies are between 20 cm- 28 cm. These you can find in a normal hunt. And of course, it is possible to hunt over 28 cm. Our hunting area is in the northwest of Turkey with forest, where you also can find hornbeem, beech and pines. Also there are lots of wild fruits in our territory. On the fields you can grow potato, wheat, barley, clover and corn. As you know wildboars like them very much. Also near these fields there are many apple, plum, walnut ,and pear trees. In our hunting area you can see bear, rubbit and deer. On the higher places of the hunting area (it named 'YAYLA' , you can see red deers. Our hunting region includes approx. 40.000 hectares.

There are also so many small rivers and 3 pieces lakes (first one is between 1 km wide and 20-25 meters depth, second one is 1500 meters wide and 25-30 meters depth, the third one is 2500 meters wideness and 200-300 meters depth) on the hunting area. The wildboards and different kind of animals are coming here to drink water. In our lake sın the hunting area the lake contains different kinds of fishes. For example the carp. The average of these carps is 200 gr. and 10 kg. you can catch with a fishing line. Our hunting place is between 500 meters and 1200 meters high from the sea level.

ABOUT OUR HUNTING PROFESSIONALITY

We are hunting professionally in different parts of Turkey since 2001. Our teamwork mentality always let us reach good results. In our territory, we have always taken the number of animals under our control and observed them . Thats why we can find and hunt big and good trophies. We got the success in the stalking hunt on the moon time. Between 1-6 days you can easily see in a night 2-3 good wildboars. Especially in the stalking and waiting hunt there is always chance to see good wildboars. The northwest region of our hunting area in Turkey is one of the best areas to find good boars. We always use land cars to bring our hunters to the hunting area for safety.

ACCOMMODATION

Our purpose is to offer our hunters a comfortable hunting time. Of course this is very important to accommodate. Safranbolu has been chosen by 'UNESCO' the world heritage city in 1994. There are many historical houses, bathrooms and a castle to visit. You can hunt and with the rest of your time you can enjoy the time of the old and amazing city. About the kitchen of Safranbolu ; You can experience the traditional food in the famous historical house of 'KADIOGLU SEHZADE KONAKLARI'. Konak means small historical house. You can find in the room of these houses 24 hours hot water, internet, and your daily needs. From all over world people are coming here to see these houses. There is also Turkish sauna where you can rest after your hunt and enjoy your time after having a nice meal. If you want to, you can swim at the summer time in the blacksea. Aproxx. 80 km from Safranbolu to there. You can find different kinds of drinks on the bar of these houses. Our guide would show you everywhere in the city if you want to see new and interesting places.

IN AN EMERGENCY CONDITION

In our hunting region in Safranbolu and Karabük there are all together 4 hospitals of government and 6 private hospitals. The distance from our hunting area to the hospital is to Safranbolu 10 km and to Karabük 15 km.

ARRIVAL AND DOCUMENTS

The distance to our hunting place from Ankara is 200 km and from İstanbul is 450 km. We pick our guests from the airport up and bring to the hotels in Safranbolu with our new model cars. Our language guide accompany our hunters. It is the same for the return. Our guest hunters have automatically a special insurance from our company.

For the documentation ; We only want from our guests to fill in the blanks of the form which we will send to you. It is the hunting permission form that we take from our government. Then you will send it to us as e-mail or fax.
